PROFESSIONAL SUMMARY

Project Manager and PMO with over 8 years of experience leading strategic technology and digital transformation initiatives at large multinationals (Electrolux, J&J, Natura&Co). Specialist in PMO structuring and management, portfolio governance, financial control (CAPEX/OPEX), and delivery of complex IT projects in multicultural environments. PMP® certified with strong expertise in hybrid methodologies (Waterfall, Agile/Scrum, SAFe, SAP Activate). Recognized for the ability to turn around critical delayed projects, engage C-Level stakeholders, and translate strategy into execution with measurable results.

KEY COMPETENCIES

- Directive PMO Management and Project & Portfolio Governance Structuring
- Project Financial Control: CAPEX, OPEX, Forecast, Earned Value (SPI/CPI)
- Methodologies: PMI/PMBOK, Scrum, SAFe, Stage-Gate, FEL, Lean, SAP Activate/ASAP
- ERP/SaaS Implementation: SAP S/4HANA, Zilliant, Oracle PLM Cloud, Labware LIMS
- Multi-level Stakeholder Management: Board, C-Level, global distributed teams
- Planning & Control: schedules, risks, executive dashboards, KPIs, Status Reports
- Go-Live, Hypercare, Change Management, and training program leadership
- Tools: MS Project, Jira, Confluence, SharePoint, SAP Solution Manager 7.2, HP ALM

PROFESSIONAL EXPERIENCE

Project Manager / Directive PMO – Dexian Consulting (Client: Electrolux) | Jun/2023 – Present

Responsible for strategic portfolio management of the PRM (Pricing & Revenue Management) area at Electrolux Brazil, leading digital transformation projects with investments exceeding R\$ 23M. Structured and operationalized the project governance framework, acting as the interface between business, IT, and C-Level.

► **Trade Deals Web (TDW) – Commercial System Migration | R\$ 2.67M | Oct/2024 – Mar/2026**

- Led the implementation of the TDW system in Brazil, replacing the Vistex (SAP) legacy, with integration to SAP and Zilliant platforms; project delivered at Go-Live in Jan/2026.
- Managed complete financial governance (CAPEX R\$2.3M / OPEX R\$0.37M), controlling invoices, POs, reversals, and reclassifications, with zero compliance deviations.
- Developed and presented weekly executive Status Reports with SPI/CPI analysis, risks, and traffic lights for Board and sponsors, ensuring full program transparency.
- Coordinated the Go-Live and Hypercare period (Jan–Mar/2026), managing critical escalation, SLAs, and system stabilization with multiple stakeholders.
- Structured a SharePoint onboarding hub centralizing documentation, training materials, and release history for Key-Users and End-Users.

► **CCR & Sales Cockpit Migration: Tableau → Power BI | R\$ 210K (CAPEX) | Nov/2025 – May/2026**

- Transformed an unviable schedule into an executable roadmap: rebuilt planning considering collective vacations and holidays, eliminated allocation conflicts, and restructured activities for maximum parallelism between CCR and Sales Cockpit tracks.
- Renegotiated the Go-Live date with analytical evidence, proving the infeasibility of the original date (Apr/26) and establishing a new corporate milestone for May/26, avoiding a compromised quality delivery.
- Implemented a weekly control process with traffic light indicators, baseline, and active deviation monitoring.

► **Pricing Tool Brazil – Analytics & Wave 2 | R\$ 4.9M | Jun/2024 – Jan/2025**

- Led structured backlog elicitation for 2 tracks (Analytics and Wave 2), engaging business and IT stakeholders for requirements mapping and prioritization.
- Supported the Procurement team in negotiations with international vendor (Zilliant), ensuring technical and commercial alignment of the portfolio base contract.
- Monitored Analytics UAT cycles, ensuring adherence to scope and acceptance criteria of delivered dashboards.

► **Pricing Tool Brazil – Zilliant SaaS Implementation | R\$ 16.75M | Jun/2023 – Jul/2024**

- Took over a critical project with 2 years of delay, accumulated overspend (2023–2024), and USD/BRL exchange adjustment, reversing it into a successful delivery with Go-Live in Apr/2024.
- Implemented 3 strategic modules: Price Management (scenario simulation), Deal Management (mix optimization), and Price Analytics (Pricing Waterfall), automating core B2B pricing processes.
- Led cross-functional collaboration between Regional IT, Business, and Global Governance, overcoming contractual and multi-level stakeholder alignment challenges.

Project Coordinator / PMO – Natura &Co | Jan/2023 – May/2023

Acted in the Template phase of the T4.ELO Program (Natura&Co's largest transformation initiative), responsible for the SAP S/4HANA LATAM implementation, covering Brazil, Chile, Colombia, and Peru.

- Structured the T4.ELO program governance, consolidating information for Steering Committee, Solutions Committee, and weekly executive rituals with alignment across Finance, Supply Chain, IT, Tax, and T4 offices.
- Led the production of strategic executive materials (KickOff, methodology, schedule, org structure), ensuring standardization and clarity for global senior leadership.
- Supported the NBSI cycle (LATAM baseline): core process mapping, transactional SIPOC, and master data definition for SAP S/4HANA integration.
- Acted as a cross-functional facilitator between 40+ regional squads, business owners, SAP architecture, and international partners, ensuring adherence to the macro schedule.

Project Manager / PMO – Numen IT Consulting (Clients: J&J, Natura) | Mar/2019 – Jan/2023

Management of corporate technology projects in regulated, high-complexity environments, adhering to international quality standards, compliance, and agile methodologies.

► **Diamond – J&J / Kenvue Separation (Hypercure Lead) | Aug/2022 – Jan/2023**

- Led the planning and management of post-Go-Live Hypercare for Logistics, Transportation, and Labeling applications (Brazil and Colombia), migrated to the new Kenvue company.
- Managed registration, triage, prioritization, and resolution of all Hypercare incidents, coordinating local and global technical teams with daily sponsor updates.

► **SDM – Sales Deals Management: Mexico J&J Rollout (BA / Scrum Master) | Mar/2022 – Sep/2022**

- Elicited requirements and customizations for JnJ Medical Mexico pricing policy implementation, integrating OneForce (SalesForce), SAP ECC, WebMethods, and STAR platforms.
- Created User Stories in Jira with acceptance criteria, conducted business demonstration sessions, and coordinated UAT test plans and scripts.

► **LIMS v6 → v8 Upgrade @ Natura (Project Manager) | R\$ 1.485M | Jul/2021 – Feb/2022**

- Managed the Laboratory Information Management System (Labware v8) upgrade, including connector replacement and virtual infrastructure (Citrix) update.
- Delivered net savings of R\$ 228,000 returned to Natura's budget through financial planning optimization and contract negotiation.
- Controlled multidisciplinary schedule (LIMS, Citrix, infrastructure), monitored CAPEX/OPEX, produced executive reports, and defined a 30-day Hypercare plan with SLA KPIs.

► **Papaléguas – Oracle PLM Cloud: 2nd Wave International Dossier (Project Manager) | Feb/2021 – Jun/2021**

- Managed Oracle PLM Cloud new feature implementation for Regulatory Affairs in 8 countries (6 LATAM + Malaysia + France).

- Monitored weekly progress on the Natura&Co LPO (Lean Portfolio Office) platform, reporting costs, risks, and KPIs to executive leadership.

► **BI Capacity / BW Conversion / Medical Stable Team @ J&J (Tech Writer & Test Lead) | Mar/2019 – Jan/2021**

- Coordinated the creation, validation, and approval of technical and functional documentation, test scripts and scenarios (HPALM) in J&J's regulated environment.
- Actively participated in Scrum ceremonies (Daily, Planning, Review, Retrospective), monitoring burndown, KPIs, and team impediments.
- Interface with J&J Brazil, LATAM, and Global stakeholders; requirements elicitation and translation into User Stories.

Project Manager / PMO – Techmahindra | Apr/2016 – Mar/2019

Clients: Ministério Público de SC (SAP S/4HANA), SANEPAR (SAP PoC), Liqigás (Multi-platform), and internal SAP Delivery.

- Led the corporate PMO, implementing a Project Management System (SGP) that standardized documentation requirements and elevated operational efficiency in the SAP Delivery area.
- Applied Earned Value Analysis (EVA) for rigorous cost and schedule monitoring in SAP projects, with status reports and compliance audits.
- Managed master schedule and financial analysis for the ERP MPSC project (SAP S/4HANA), ensuring full compliance with the public tender and on-time, on-budget delivery.
- Modeled business processes (BPMN) and developed training materials, supporting technical qualification of vendors and internal teams.
